

Augmented Banking App

Find deals ahead of your competitors and enhance your clients' experience with Augmented Intelligence

Corporate financial services firms have all the data they could ever need, most of it coming from premium resources. But up to 99% of this data is never used, and remains inaccessible for business users.

With Squirro's Augmented Banking App you will be able to unlock the power of all your data! Find deal opportunities ahead of your competitors, get actionable recommendations and relevant talking points and make use of the 360° client insights dashboard to bring your client understanding and interaction to the next level.

EXPLORE

Augmented Banking App

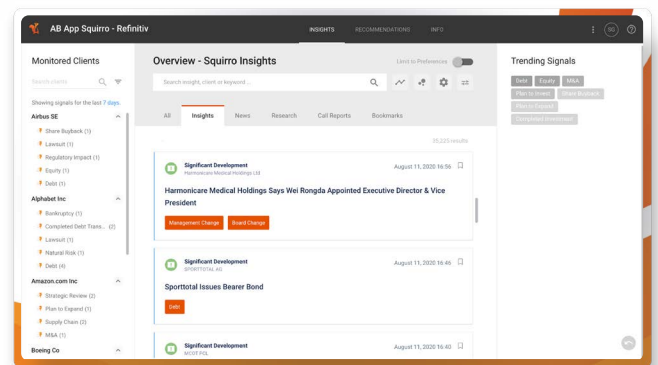

1 IMPROVED DEAL ORIENTATION

In a vast and interconnected banking sector there can be many different triggers that inspire a deal idea or lead to an opportunity. These triggers or signals affect your client's business and your customer relation in real-time. The Squirro Augmented Banking App continuously monitors all data sources for signals and alerts you whenever it discovers M&A activities, management changes, plans to raise capital, etc.

2 INTELLIGENT RECOMMENDATIONS

The Squirro Augmented Banking App analyses unstructured data and searches across internal and external data sources to identify potential opportunities for clients, providing signals and recommendations that can trigger new client engagement opportunities and talking points.

3 360° CLIENT COCKPIT

Gathering all information and insights in one place allows users to get up to speed with clients quickly. The Squirro Augmented Banking App takes data from multiple sources in the bank – structured and unstructured, internal and external - and delivers insights into each client via a bespoke 360° client cockpit. This offers a complete view of each client and the related broader landscape.
